

PRE-HEALTH QUICK TIPS

PROFESSIONAL SCHOOL INTERVIEWS

1

DO YOUR RESEARCH

Most health schools conduct interviews for admission. Research each school's process to identify the type of interview conducted.

Interview formats may include:

- Single one-on-one interview
- Multiple one-on one interviews
- Group interview
- Multiple mini interviews

2

REFLECT ON YOUR EXPERIENCES

Spend time reflecting on your academic, personal, and extracurricular experiences and how they have prepared you for a career in healthcare. Think about why you want to pursue the specific career you've chosen and the qualities that make you a strong applicant.

3

BE SPECIFIC

Provide detailed examples of your experiences when answering questions. This will provide context and help differentiate you from other applicants.

4

DO MOCK INTERVIEWS

Mock interviews give you practice answering interview questions and provide you with feedback on your responses. Take advantage of the following opportunities:

- Explore Center Mock Interviews:
exploreregistration.unl.edu
- UNL Career Services Big Interview:
unl.biginterview.com

5

DRESS APPROPRIATELY

Look professional and maintain a conservative approach. A suit is often expected.
