Major in Anything and be Pre-Mortuary Science at NEBRASKA!

Pre-Mortuary Science is one of sixteen advising categories in Pre-Health indicating your interest in pursuing coursework to prepare for and apply to professional school. The great part is you can major in anything and pursue these paths. You are not locked in to a set program—you can choose from any of Nebraska’s 150 majors—choose one of the sciences, engineering, business, humanities, or even the arts.

Why NEBRASKA for Pre-Mortuary Science?

The University of Nebraska–Lincoln has graduated more health professionals than any other school in the state. Learn from faculty who are experts in their field through hands-on experiences in research and instructional labs. As an example, in partnership with the University of Nebraska Medical Center, our anatomy lab utilizes a variety of technologies and human cadavers to provide you with an interactive learning experience. You can even apply to be an intern or teaching assistant as an undergraduate student.

Explore the human side of health care with our unique Humanities in Medicine Program in our College of Arts and Sciences. The program is designed to support students’ learning about the social and cultural contexts of health, illness and medical care. Enroll in relevant and engaging courses in the humanities and social sciences that will complement and balance your preparation in the life sciences.

Your success is the number one priority for the professional advisors in our Explore Center, connecting you with resources and staff to help you reach your goals. From course selection and planning to application timeline and entrance exam preparation to experiential opportunities and networking with professional school representatives, the Explore Center will help you excel.

Make Your Mortuary Science Application Stand Out.

Getting accepted to professional school means finding a way to distinguish yourself from others. Develop academically and personally, becoming the type of applicant professional schools want by:

- Connecting with other students interested in the healthcare fields in our first-year learning communities
- Developing leadership skills by joining one of the health-related student organizations
- Getting a first-hand look at your areas of interest through a shadow or volunteer experience
- Engaging in undergraduate research to apply what you are learning in the classroom
- Exploring the world through our diverse education abroad opportunities

All these growth and leadership opportunities are waiting for you at NEBRASKA!

PRE-MORTUARY SCIENCE

Required Course Work*	MIN. #
English Composition	2
Accounting	2
Psychology	2
Biological Sciences with Labs ▪ Must be relating to the human body	3
Chemistry with Labs	2

*Specific requirements listed are those for licensure for the state of Nebraska. Students should contact the specific mortuary science program regarding course requirements for the school's associate degree.

Note: Since students attending a mortuary science program will earn an associate's degree, a baccalaureate degree from UNL is not required prior to admission. UNL offers coursework required at the undergraduate level as specified by the state of Nebraska licensure requirements for funeral directing and embalming. These hours must be earned in addition to a full course of instruction in a school of mortuary science; hours earned as part of the mortuary degree or diploma cannot be used towards meeting these 60 hours.

SUGGESTED SEQUENCE OF COURSES:

Required & Recommended Courses Only			
FIRST	General Chemistry I w/lab	SECOND	General Chemistry II w/lab
	English Composition I		English Composition II
			Psychology I
THIRD	Biological Science course w/lab	FOURTH	Biological Science course w/lab
	Biological Science course w/lab		Accounting
	Accounting I		Psychology II

Professional School Requirements:

- **Undergraduate Credit:**
60 hours
- **Entrance Exam:**
None
- **Professional Schooling:**
Associate's Degree
- **Local Professional Schools:**
None in Nebraska; Regionally - Kansas City, KS; Des Moines, IA; St. Louis, MO
